

With 26 billion IOT devices by 2020, Government Mandates, and new Security Concerns, Are we ready?

(ISC)² East Bay Chapter – Nov 9th, 2018 Fall Security Conference

If Cybersecurity is the theme to your action-packed security career, then conquering IPv6 and IOT is the price of admission. Without facility and strategy in the face of these two key area, its game over before you even get butter on your popcorn.

Venue: Saba Software

4160 Dublin Blvd Suite 145
Dublin, CA 94568

November 9th, 2018
8:00 AM – 5:00 PM

The November 9th IPv6+IOT: Price of Admission one-day security event includes 11 speakers and six Tabletop labs, earning 8 CPE for full attendance. Learn more at <https://isc2-eastbay-chapter.org>, [LinkedIn](#), [Facebook](#)

Early bird [Registration](#) ends November 1st. For more information contact conferencedirector@isc2-eastbay-chapter.org – member rates extend to (ISC)², ISACA and ISSA

Eminent speakers from Cisco, Hexabuild, CyberArk, Netskope, 6connect, Zingbox, and the California IPv6 Task Force – and special thanks to Attivo Networks for coordinating the hands-on Tabletop exercise – Adding IOT to our threat landscape, BIA and emergency response exercises.

IPv6 & IOT: Price of Admission:

Celebrating the 6th year anniversary of worldwide IPv6 launch.

IPv6 Addressing and Zero Touch Provisioning

Privileged Account Risks and Where to Find Them – Part 2: What are the roles on IOT devices?

Managing IPv6 adoption initiatives and large-scale cloud deployments for both enterprises and service providers

IPv6 TLDR: Everything you didn't want to know or hear about IPv6 and the changing IPv4 landscape- in less than 12 Parsecs

... and more
