EAST BAY

(ISC)² East Bay Community History & Mission

The (ISC)² East Bay Chapter began on March 9th, 2014. Gary Dylina, the chapter's Director Finance, accomplished its incorporation on Oct 17th, 2017. Since its beginning, we have strived to keep the Cybersecurity East Bay community:

Informed

Engaged

Relevant

Security and Risk Management

Asset Security

Security Architecture and Engineering

Communication and Network Security

Identity and Access Management (IAM)

Security Assessment and Testing

Security Operations

Software Development Security

Legal & Social Issues Impacting our Field

Welcome to The Year We've Had and the Gift of Experience 8:00 PM

Board as of 2020 – was supposed to change, but we all hung in to get past the Pandemic

- » [President](#) Robin Basham – this is my last year and I'm looking to transition to the VP in 2023
- » [Vice President](#) Istvan Berko since 2019, nomination Erica Cunningham
- » [Treasurer and Finance Director](#) Gary Dylina, nomination Irwin Cheng, transition year
- » [Chapter Secretary](#) Carmen Parrish
- » [Director Membership](#) Kerry Bryan -> transitioned 2022 Robin, nomination Dan Green
- » [Director Programs](#) Denise Bonds-> transitioned 2022 Robin, nomination Corey Brown
- » [Directors Operations](#) Dan Green, Rizwan Ashraf-> transitioned 2022 Craig, nomination Peter Chen
- » [Director Technical](#) Steven Lai-> transitioned 2022 to Craig Porter, current Director Technology
- » [Director Marketing & Communication](#) Krishnan Thiruvengadam
- » [Director Outreach](#) Maura Jones
- » [Director of Education & Career Development](#) Maura Jones-> transitioned 2022 Jack K. Rasmus-Vorrath
- » [Conference Director](#) Robin Basham
- » Conference Committee nominations uncontested Deborah Mannia, Donald Hester

(ISC)² East Bay Election Preview – Vote January 12

Position	Duties	Candidates
President	Responsible for presiding over the business meetings and ensures that all rules and regulations are observed, appoints and serves as a member of all committees, decides tie votes and ensures that all officers faithfully perform their duties. Must have (ISC)2 Credential in good standing.	Robin Basham (current) Write-in:
Vice President	Responsible to co-assist in operations and general administration of the Chapter and assumes the responsibilities of President and Secretary when they are unavailable. Must have (ISC)2 Credential in good standing.	Istvan Berko (current) Nomination Erica Cunningham, Write-in:
Director (Physical Security) Operations	Proposing a role that is responsible for all physical arrangements, on site security, property belonging to the chapter, acting in support of the President and Treasurer/Director Finance.	Open b/c we have no one local (current) Nomination Peter Chen Write-in:
Treasurer, Director Finance	Responsible for keeping an accurate and complete record of all chapter receipts and expenditures, develop detailed accounting reports, and file any necessary financial applications or forms required by (ISC)2 or applicable laws. Must have (ISC)2 Credential in good standing.	Gary Dylina (current) Nomination Irwin Cheng Write-in:
Secretary	Conduct meetings, record proceedings of the chapter, assist in the election process, write correspondence, and prepare reports to (ISC)2 and assist in general operations as needed. Must have (ISC)2 Credential in good standing.	Carmen Parrish (current) in place till 2026 Write-in:
Director Programs	Organizing and hosting events, seminars, and other functions of the Chapter, liaison with the Director Marketing, and Director – Operations, assist in content development for the Chapter website, and assist in the general operations of the Chapter as needed; should always work in the interest of East Bay Chapter.	Robin covering (current) Cory Brown, uncontested nomination Write-in:

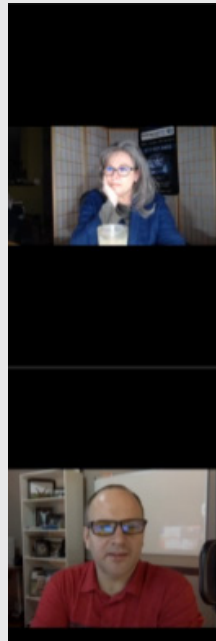

EAST BAY

Position	Duties	Candidates
Director Education & Career Development*	Responsible for assisting the Chapter members with their continuing education (CE) efforts, to provide information about the CE opportunities, and to assist in the general operations of the Chapter as needed.	Jack K. Rasmus-Vorrath (current) in place till 2026
Director Technology	The director of technology has evolved to represent all operations in digital space. This critical role assures our security in every aspect of records management and currently manages and designs the chapter website.	Craig Porter (current) in place till 2026
Director – Membership	Responsible for promoting the membership growth of Chapter, ensuring smooth entry for new members, and maintaining accurate membership records. Must have (ISC)2 Credential in good standing.	Robin covering, Dan Green nominated Write-in:
Director – Communications & Marketing	Responsible for marketing the events and seminars of the Chapter, liaison with President and Director-Programs, and assist in the general operations of the Chapter as needed.	Krishnan Thiruvengadam (current) Write-in:
Director – Cybersecurity Awareness (Outreach)	Responsible for raising Cybersecurity awareness in the community via educating kids, seniors, parents, etc., about internet safety, cyberbullying etc., based on “Safe and Secure Online” or similar organizations, and assist in general operations as needed.	Maura Jones (current) Write-in:
Director – Sponsorship	Responsible for reaching out to industry and businesses to seek donations and sponsorship for the Chapter, Chapter events, and assist in general operations as needed. This role reports to the President and Treasurer.	Currently managed by the President and Conference Chair, Robin Basham Write-in:
*Director – Career Development	Responsible for assisting, guiding, and mentoring the Chapter members with career development and assist in general operations as needed, for gathering and updating the jobs page for the chapter website.	Currently combined with Director Education however a role can be added. Write in:
Conferences Committee	This position does not require election. Members are welcome to participate in conference committee planning, offering a chance to bring speakers, plan events, coach presenters, and coordinate the physical day of our one day them-based training	Deborah Mannia and Donal Hester, uncontested nomination Write-in:

Actionable Auditing: Investigating the Impact of Publicly Naming Biased Performance Results of Commercial AI Product By Inioluwa Deborah Raji and Joy Buolamwini Jan. 24, 2019

Actionable Auditing:
Investigating the Impact of
Publicly Naming Biased
Performance Results of
Commercial AI Products —
MIT Media Lab

Although **algorithmic auditing** has emerged as a key strategy to expose systematic biases embedded in software platforms, we struggle to understand the real-world impact of these audits, as scholarship on the impact of algorithmic audits on increasing algorithmic fairness and transparency in commercial systems is nascent. To analyze the impact of **publicly naming and disclosing performance results of biased AI systems**, we investigate the **commercial impact of Gender Shades**, the first **algorithmic audit of gender and skin type performance disparities in commercial facial analysis models**.

- 1) outlines the audit design and structured disclosure procedure used in the Gender Shades study,
- 2) presents new performance metrics from targeted companies IBM, Microsoft and Megvii (Face++) on the Pilot Parliaments Benchmark (PPB) as of August 2018,
- 3) provides performance results on PPB by non-target companies Amazon and Kairos and
- 4) explores differences in company responses as shared through corporate communications that contextualize differences in performance on PPB.

Within 7 months of the original audit, we find that all three targets released new API versions.

All targets reduced accuracy disparities between males and females and darker and lighter-skinned subgroups, with the most significant update occurring for the darker-skinned female subgroup, that underwent a 17.7% - 30.4% reduction in error between audit periods.

Minimizing these disparities led to a 5.72% to 8.3% reduction in overall error on the Pilot Parliaments Benchmark (PPB) for target corporation APIs.

The overall performance of non-targets Amazon and Kairos lags significantly behind that of the targets, with error rates of 8.66% and 6.60% overall, and error rates of 31.37% and 22.50% for the darker female subgroup, respectively.

Robin Basham

Approvals

- Reporting activity for August if any exists
 - Adding members via web from notification to the membership list
- Jack on the new Training Resources
- Craig, Krahnen, Jack, Passing the One Million Strong initiative
 - Building a Defensive Line One Million Strong - ISC2 Challenges to Expand and Diversify the Cybersecurity Workforce with Free Certification Education and Exams for One Million (isc2.org)
- John, please provide a link to Craig for the website
- Krahnen, please include a summary of the upcoming meeting to our membership
- Craig update on Tech
- Gary update on Finance
- Speakers for September
 - Bob DeLong, Reliance - Securing your Digital Assets
 - Genel Gregh, Kenney Madison, YouAteIt - The Mandate for a Secure Enterprise

President (Robin)

Robin acknowledged and thanked Craig Porter for the membership form via the Web. The form is working is really well as Robin copies the relevant information into the Master Membership file.
The board agreed to approve an additional 4 CPEs for Jack and Craig for doing the technology and delivery for the CISSP training (see Jack's Education Director report).
Robin has previewed the YouAteIt presentation and believes it will be very good and valuable to the membership on identity access. Robin asked John and Craig (as moderators) to interview the Reliance speaker to be done not on a "sales pitch" mode since the speaker is a marketing individual from the company and not a technical individual. She had gotten a demo, but this is a different person. John and Craig will prepare technical questions to steer the conversation.
