Immense gratitude to our venue and event sponsor, Las Positas College!

If you are a Cybersecurity vendor and you wish to contribute interactive learning in our live labs conducted on the campus of Las Positas, direct inquiries to conferencedirector@isc2-eastbay-chapter.org

Full Attendance earns 8 CPE | Evidence of competing the fireside chat + committee work can earn up to 13 CPE

Incident Response to Resilience Conference

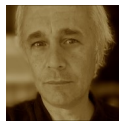

EAST BAY

March 14th, 2025
At Las Positas
College, Livermore

[Alexandra Weaver](#), Sr Solution Architect at Semperis | Incident Response & Resilience In Operations—Pragmatic Solutions

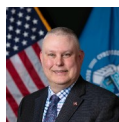

[Christer Swartz](#), Director of Industry Solutions at Illumio | Re-thinking Cyber-security

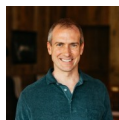

[Jonathan Sander](#), Field CTO, Astrix | The Non-Human Problem

[John Martinez](#) Technical Evangelist, StrongDM | Zero Trust in Action - Identity

[Donald E. Hester](#), CISSP, CISA, CGRC, CRISC, CISA Cybersecurity Advisor – San Francisco Bay Area | Your Resources from Cybersecurity and Infrastructure Security Agency

[Anderson Lunsford](#), CEO, Co-Founder at BreachRX | Incident Response - Why we Need a Legal Playbook

BREACHRX

[Tolgay Kizilelma](#), PhD., Dominican University of California, Director of the MS in Cybersecurity Program | From Crisis to Continuity: Building Resilient AI Governance

DOMINICAN
UNIVERSITY
of CALIFORNIA

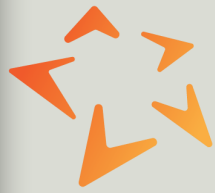

[Aimei Wei](#), Chief Technical Officer (CTO) & Founder | NG-SIEM, NDR, and Open XDR—Why We Built it This Way and Lessons Learned Along the Way

[Gopi Ramamoorthy](#), Head of CyberSecurity, AI Security, Privacy & Compliance Eng | CISO | Symmetry Systems | "Unfortunately, you lost your data" - Who will be knocking your door and why

Stellar Cyber's Automation-driven Security Operations Platform, including NG-SIEM and NDR and powered by Open XDR, delivers comprehensive, unified cybersecurity without complexity. It empowers lean security teams of any skill level to secure their environments successfully. As part of this unified platform, Stellar Cyber's Multi-Layer AI™ enables enterprises, MSSPs, and MSPs to reduce risk with early and precise threat identification and remediation while slashing costs, retaining investments in existing tools, and improving analyst productivity. This results in a 20X improvement in MTTD and an 8X improvement in MTTR. The company is based in Silicon Valley. stellarcyber.ai.

Astrix focuses on securing non-human identities (API keys, service accounts, Access tokens, etc. and extending identity security to machines. Astrix offers insight into all non-human identities and automatically identifies and addresses excessive, unnecessary, and harmful access to avert supply chain threats and data breaches. The platform is designed to control the lifecycle of non-human identities, providing an agentless solution for organizations to manage these identities efficiently.

GOLD SPONSORS

SUMMIT7 protects the American Dream by Securing the Warfighter; enabling Department of Defense contractors to win more contracts through next-level cybersecurity and compliance. We help the defense supply chain protect America's data and future generations of United States Warfighters by implementing the right security and compliance measures in the Microsoft Government Cloud. Experts in CMMC, CUI, ITAR, NIST 800-171, and DFARS.

Legacy - Platinum

Securonix delivers a next generation security analytics and operations management platform for the modern era of big data and advanced cyber threats. Securing the world by staying ahead of cyber threats. We work together with universal respect to achieve aligned outcomes.

SECLORE: Securing Sensitive Data Better — Tired of Data Vulnerabilities? Try Seclore For Peace Of Mind. Request Demo. We Protect Your Sensitive Data Right The First Time. Experience Seclore Data Security.

Netskope Security Cloud provides real-time visibility, threat protection, and data security for cloud services, websites, and private applications. (DELL Technologies)

CyberArk is a company that provides identity security and access management (IAM) solutions. Their products help organizations protect their assets and data from cyber attacks.

SILVER SPONSORS

Illumio is a company that provides a platform for zero trust segmentation (ZTS) to help protect data centers and cloud environments from cyber threats. The platform is designed to contain breaches, stop ransomware, and highlight risk. Features: Microsegmentation | Breach containment | Policy setting | Risk visualization

Semperis: Identity-driven cyber resilience and threat mitigation platform for cross-cloud and AD hybrid environments. Semperis provides security solutions for Active Directory (AD) environments. Their services include threat detection, response, and recovery.

BigID is a leader in data security, privacy, compliance, and governance, enabling organizations to proactively discover, manage, protect, and get more value from their data in a single platform for data visibility and control. Customers use BigID to reduce their data risk, automate security and privacy controls, achieve compliance, and understand their data across their entire data. landscape, including multicloud, hybrid cloud, IaaS, PaaS, SaaS, and on-prem data sources. CNBC has recognized BigID as one of the top 25 startups for the enterprise, has been named to the Inc 5000 and Deloitte 500.

StrongDM is a Zero Trust Privileged Access Management platform that centralizes and simplifies access management across your entire infrastructure, on-premises or in the cloud. With Zero Standing Privileges and Just-in-Time (JIT) access, it enforces fine-grained, context-based policies in real time. Security teams gain deep visibility and action control to identify unused access, over-privileged roles, and compliance gaps. End users benefit from fast, intuitive access to resources, boosting productivity and efficiency.

B R E A C H R X

BreachRx is a company focused on providing incident management software within the cybersecurity industry. Its main offerings include automated incident response planning, regulatory compliance automation, and integrated data breach response for various organizational teams. The company primarily sells to sectors that require robust incident management and compliance solutions, such as legal, privacy, and security sectors. It was founded in 2017 and is based in San Francisco, California.

Symmetry Systems: Unprecedented Data Transparency | Data is the cornerstone of progress. In an increasingly AI-powered digital world, Data should be treated with the respect it deserves, and that starts with privacy and security. Not just security of the infrastructure on which that is stored, but into every permission and operation performed on that data.
